Health Services and Liability

There are a variety of health care services available to students who find themselves ill or injured at the workshop.

For minor ailments, there are basic first aid kits in Montgomery Hall and the dorm, with standard medications (Tylenol, antacid, antihistamine, etc.) and other health care necessities.

If the need arises, the FSU Wellness Center is fully equipped to meet the medical needs of the students and has a full staff of doctors and nurses. If a dancer is injured acutely during the workshop, they will first see a medical doctor at the Wellness Center who may give them a referral for physical therapy in the Wellness Center when appropriate.

The Wellness Center is open from 8:00am to 4:00pm, Monday through Friday and located a few blocks from Montgomery Hall. If your child needs to visit the Wellness Health Center, you will be contacted immediately. They will bill your health insurance based on the information you give them.

Emergency health services are available after hours and on weekends at local hospitals and emergency care facilities. If a Social Security number is not provided on your medical form, this will delay seeking emergency treatment if necessary.

The Program Director, Assistant Director, or a counselor will accompany all students when seeking medical care on or off campus. You will be notified immediately beyond any minor issues such as a headache, sniffles, minor cut, etc.

**LIABILITY INSURANCE**

The workshop is sponsored by the FSU School of Dance and as such, your signature on the Voluntary Consent Form sent with your payment insures that your dancer is covered with limited liability insurance. This only covers the students on and off campus under our supervision. It does not cover the student during travel to and from Tallahassee.
